

27 September 1973

Mr. C. L. Merry  
Department of Surveying Engineering  
The University of New Brunswick  
Fredericton, New Brunswick  
Canada

Dear Mr. Merry:

Thank you for your letter of 20 September 1973. While we are normally delighted to hear from CAM and World Data Bank I users, critical notes such as yours do sting a little.

I have sent the list of problems to our Programming Staff for investigation. If these cited errors do exist, corrections will be made and all users notified. The absence of samples was brought to our attention earlier and corrected in the new documentation which is enclosed. Please be warned that this publication refers to CAM Version 3 (PB 223177 - \$97.50). The differences from your Version 2 are cited in the Addendums.

Of possible interest is a new release, the BUDAK Program, which converts digitized XY values to geographic coordinates in 5 projections. The documentation PB 223179 and tape PB 223180 cost \$4.25 and \$97.50, respectively.

Sincerely,

STATINTL *1A1*

  
Assistant for Technical Development  
Office of Basic and Geographic Intelligence
